Professional Summary

Software Developer with full-stack experience in React, Java, Python, and SQL, with a background in product design and documentation. Skilled at developing scalable applications, improving user experience, and collaborating with cross-functional teams. Previously co-founded a tech start-up leveraging technology to combat child trafficking.

Technical Skills

- Languages: Python, Java, JavaScript, SQL
- Frameworks & Libraries: React, Spring, Flask, Express, Jinja2
- Databases: PostgreSQL, MongoDB, SQL
- Tools: Git, Docker, AWS, Agile methodology
- Other: Product documentation, UI/UX collaboration

EXPERIENCE

EOLAS Insight — Junior Software Developer
Sep 2023 – Present

- Key client projects:
    - **Trustable AI Mapping** – created data visualisation features with strong frontend-backend integration.
    - **Seabird Monitoring (CivTech)** – developed geospatial dashboards for biodiversity monitoring.
    - **Satellite Imagery - Canopy Health Monitoring –** built interactive tools to track and visualise forest canopy conditions.
- Delivered **frontend development** in **React**, focusing on building responsive and user-friendly interfaces.
- Integrated f**rontend components** with **backend APIs (SQL & Node.js)** to ensure smooth data flow and functionality.

Education

Professional Software Development (SQA Level 8)

CELTA (Pass B) – Cambridge English

Android Basics Nanodegree – Udacity

Bachelor's in Commerce & Business

Achievements

SQA Assessor Award - Level 8

Speaker at TEDx Ghaziabad

CELTA - "Pass B"

Android Basics Nanodegree by Google - Udacity

NASSCOM HOT 100, selected for the HOT 100 startups

Product Hunt top 3 in 500 Startups applicants

CNN IBN Startup Star
Top 4 in Facebook's Internet.org awards

- Collaborated on **product design and user documentation,** contributing to UI/UX improvements and clear user journeys.

- Worked with **AWS and Docker for application deployment** and storage **(including PDF storage in S3)**.

- Collaborated with cross-functional teams on **API development**, **testing, and debugging**.

CodeClan, Edinburgh — Assistant Instructor
May 2022 – Aug 2023

- Delivered lessons in Python, JavaScript (React), and Java (Spring) to students in a 16-week intensive bootcamp.

- Debugged student projects, designed coding challenges, and built learning materials.

- Designed and ran short courses like CodeClan Youth Academy (JavaScript & Web Development).

Freelance English Trainer — British Council & Mount Litera Zee School
2018 – 2019

- Trained students and professionals in communication, workshops, and curriculum delivery.

Helping Faceless, Mumbai — Co-Founder
2013 – 2017

- Built and scaled a tech-based initiative to combat child trafficking in India and Bolivia.

- Led volunteer coordination across multiple cities, developed a mobile reporting platform, and partnered with law enforcement.
